Seattle, WA 98115-7114

Dear Ms. Roth:

Re: Request for Schedule Extension, Terminal 91 Tank Farm Site Agreed Order

This correspondence serves as official approval by the Washington State Department of Ecology (Ecology), for the schedule extension as requested in your August 17, 1998 letter. This approval only applies to an extension of the submittal date of the Terminal 91 Remedial Investigation/Data Evaluation report from October 7, 1998 to January 7, 1999.

Ecology is granting a ninety- (90) day extension on the submittal of the Terminal 91 Remedial Investigation/Data Evaluation report in response to the reasons listed within your correspondence. However, Ecology will be reluctant to grant future extension based on Philip Services Corp (PSC) staff workload issues at other facilities. Corrective action at Terminal 91 must continue to make progress.

If you have any questions or comments, please contact me at (425) 649-7026.

Sincerely,

Sally Safioles
